

PROFILE

Results-driven Computer Science and Data Analytics student at IIT Patna with a strong foundation in Python, database management (PostgreSQL/NoSQL), and Artificial Intelligence. Experienced in leveraging data to solve complex problems, from developing AI-powered computer vision tools to analyzing large datasets for security intelligence. Passionate about transitioning my analytical and programming skills into full-time Data Science and AI Development roles.

SKILL

- **Data & AI:** Python, PostgreSQL/NoSQL, Data Analytics, Machine Learning, Computer Vision / AI Development.
- **Software Development:** Django, Node.js, React.js, Git/GitHub, Bash.
- **Data-Driven Security Analysis:** SIEM Management, Threat Intelligence & Hunting, Malware Analysis, Network Security.

EDUCATION

INDIAN INSTITUTE OF TECHNOLOGY, PATNA

2023 – 2026

Bachelor's in Computer Science and Data Analytics

PIYUSH BHUYAN

Data Analyst & AI Developer | CS & Data Analytics
Undergrad @ IIT Patna Python, SQL & Machine Learning

WORK EXPERIENCE

ITTRAINER

BHAWANIMARKETING PVT LTD | 2026 JAN – PRESENT

- Conducted OSINT data gathering and analysis to assist in live cyber investigations.
- Developed and deployed Steganography tools to aid in digital forensics.
- Delivered technical PPT presentations to internal teams.

Cyber Security Analyst

VAULT-TECSECURITY | MAY2025 – AUG 2025

- Analyzed large volumes of log data to identify anomalies and detect threats.
- Compiled complex security data into comprehensive, easy-to-read reports for stakeholders.
- Delivered technical sessions regarding the Dark Web.

Cyber Security Intern

HARYANA POLICE | JUNE2024 – AUG 2024

- Taught scripting and data-handling concepts alongside cybersecurity fundamentals.
- Led consultation and placement-ready sessions for students.

PROJECTS

- **Steganography Detection**

Use to detect Steganography from Image and Audio

- **AI POSE Detection**

Helps people to correct their postures during exercise

- **AI Rehab & Strength Training Pose Detection Model**

Engineered an AI-powered pose detection model processing real-time video data feeds to provide immediate corrective feedback across structured 15-day and 30-day strength and physical rehabilitation courses.
